

Conflict Minerals Policy Statement

LaFollette Machine & Tool Co., Inc. is committed to sourcing raw materials and components from suppliers that support the humanitarian goals of the Dodd-Frank Act.

The Conflict Minerals Rule requires publically traded companies to report annually the presence of conflict minerals (tin, tungsten, tantalum and gold, or their derivatives) originating in the Democratic Republic of the Congo ("the DRC") or adjoining countries. The requirement does not extend to any Conflict Materials obtained from recycled or scrap sources.

LaFollette will continue to work cooperatively with our suppliers to ensure Conflict Minerals compliance for our customers.
